Reference from the Collector of Bellary, dated 24th October 1934, No. Ref. C. 47/33-A-2.

Endorsement from the Board of Revenue (Land Revenue and Settlement), dated 8th December 1934, No. H. 3668/34. p29 (N)

From the Collector of Bellary, dated 7th December 1934, No. 47/33-A-2.

Order—No. 2592, Revenue, dated 13th December 1934.

In G.O. No. 1452, Revenue, dated 25th July 1934, the Government published for criticism draft rules for the levy of water-cess for the irrigation of crops in the Hopset taluk of the Bellary district with water from the Basavanna channel (including the Extension channel), the Roya channel and the Kamalapuram tank. The draft rules were published in English on page 1398 of the *Fort St. George Gazette*, Part I, dated 14th August 1934, and in English and in Telugu in the *Bellary District Gazette*, dated 14th September 1934, and in Kanarese in the same gazette, dated 15th October 1934. No objection or suggestion relating to the draft rules has been received. The draft rules are accordingly confirmed.

2. The notification appended to this order will be published in English in the *Fort St. George Gazette* and in English, Telugu and Kanarese in the *Bellary District Gazette*.

3. The Senior Translator to Government is requested to furnish the Superintendent, Government Press, with Telugu and Kanarese translations of the notification.

APPENDIX.

NOTIFICATION.

In exercise of the power conferred by section 1 of the Madras Irrigation Cess Act, 1865 (Madras Act VII of 1865), the Governor in Council is hereby pleased to prescribe the following rules for the levy of water-cess for the irrigation of crops in the Hospet taluk of the Bellary district, with water from the Basavanna channel (including the Extension channel), the Roya channel and the Kamalapuram tank.

RULES.

I. For the purpose of these rules:—

(*a*) Irrigation is said to be regular when the crops (other than second-crop paddy) are irrigated—

(i) in case the land is ryotwari wet land, from the source assigned to the land and in accordance with the conditions under which it is registered as wet in the Government registers, or

(ii) under and in accordance with the terms of a permit issued by the Executive Engineer and in force for the time being.

All other irrigation (including irrigation of second-crop paddy) is irregular.

(*b*) A second-crop is a crop grown on land on which a first irrigated crop not being a dufasal crop has already been grown in the same fasli.

(*c*) A third-crop is a crop grown on land on which either two irrigated crops or an irrigated dufasal crop has already been grown in the same fasli.

(*d*) A dufasal crop is a crop which normally remains on the ground for more than six months, such as sugarcane, betel, turmeric and elephant-yam.

Explanation.—Coconut, areca, lime, orange and other plantations of trees which are usually irrigated for more than six months are dufasal crops.

II. When water from the Basavanna channel (including the extension channel), the Roya channel or the Kamalapuram tank, is supplied for the regular irrigation of crops, water-cess shall be levied at the following rates:—

(*a*) for the irrigation of crops on dry lands in ryotwari or proprietary villages including minor inam dry lands—

(i) for a first irrigated crop not being a dufasal crop, Rs. 10 per acre;

(ii) for a second or third irrigated crop, not being a dufasal crop, Rs. 5 per acre; and

(iii) for an irrigated dufasal crop, Rs. 15 per acre; and

(*b*) for the irrigation of a second or third irrigated crop or an irrigated dufasal crop on lands registered as single crop wet in the C Register of the proprietary villages of Benakapuram, Singanathanahalli, Kallirampuram, Mylapuram and Jodi Thimmalapuram or on minor inam single crop wet lands in ryotwari or proprietary villages, Rs. 5 per acre.

III. For the regular irrigation of crops on lands newly brought under irrigation, the rates to be charged in respect of the first two years of irrigation shall be one-fourth of the rates specified in clause (*a*) of Rule II, in respect of the third year of irrigation shall be one-half, and in respect of the fourth year of irrigation shall be three-fourths of those rates.

IV. When the water cannot be used for irrigation without raising it by baling or by means of a mechanical contrivance, a deduction of one-fourth of the rates chargeable under Rules II and III shall be made.

V. For the irregular irrigation of crops with water from the channels or the tank referred to in Rule II water-cess shall be levied in accordance with the rules contained in the Revenue Department Notification No. 138, dated the 8th May 1933, published at pages 779–780 of Part I of the *Fort St. George Gazette*, dated the 23rd May 1933, as altered or amended from time to time.

VI. A permit issued by the Executive Engineer shall remain in force until it is cancelled by him by notification in the District Gazette. The Executive Engineer shall not cancel a permit in cases where water has been supplied for five consecutive years, without obtaining the previous approval of the Collector and the notification shall state that such approval has been obtained.

VII. Notwithstanding anything contained in the foregoing rules the Government reserve the right, with or without reasons given, to discontinue either temporarily or permanently the supply of water to any land, to alter the source of supply of water to any land and to modify the method of charging for water and the rates at their discretion.

Note File

Refee: J.S's remarks on p 3 of BP. 364 Mis dt 28.1.35.

JS (T)

The Basavanna & Raya channe and the Kamalapuram Tank, the irrigation from which is to be charged at the rates prescribed in Rule II in the notification at p 2 of (T), are in the Hospet tk, Bellary Dt. At the collection of the ~~water~~ assessment of the water. the January instl has been postponed to April in the Hospet among other talukas. The G.O. prescribing the new rates

p3 of (D) 15/2/35

was issued in December 1934 though the draft rules were published in July 1934, no objections were received against the new rates and they have accordingly been confirmed.

p1 of (T)

p103 of (S) 30/8/11 6/2/35

Further, the collr has recently submitted proposals for ~~reduction~~ remission this fasli (and has excluded from the proposals the villages irrigated by the Tunga bhadra channel

* draft from orders of the Board under submission separately from the Fit Section. 4/2/35

The collr must be aware of the G.O. of December 1934 when he made his proposals for ~~assessment~~ concessions

p1 of (T)

It is therefore for consideration whether the question of postponing the introduction of the new

7

should be considered more. An extent

going lands involved is about 1349 acres
